Art Unit: 2862

1. Applicant's election of the invention of Group I in Paper No. 2, filed 5/7/02 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2. Claims 6, 7 and 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 6 the phrase "a fixable third maximum" is vague since no second maximum has been recited. In claim 7 "the frequencies" lacks antecedent basis. Also the phrase "a fixable fourth maximum" is vague since no second or third maximum has been recited. In claim 12 the phrase "a fixable fourth maximum" is vague since no third maximum has been recited.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hansen et al.

5. Claims 1 and 5 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Moody et al.

Art Unit: 2862

6. Claims 11, 13 and 15-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 6, 7 and 12 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

8. Any inquiry concerning this communication should be directed to Walter Snow at telephone number (703) 305-4911.
